Processing Directive **c-spice[®] nw**

Product description: sewn spice casing on the basis of non-woven

c-spice[®] nw must not be exposed to moisture before processing, since the spice coating inside can detach itself from the casing.

If you have not used all of the spice casings in your PlanetPac bag, simply close this again and store the **c-spice[®] nw** in an environment that is as dry, cool and dark as possible.

- stuff dry and firm (5-8% over nominal diameter)
- to be clipped at the uncoated material (clipping help)
- the spice transfers during the cooking or curing to the product
- first cool thoroughly before removing the casing

Application range: cooked ham, boiled sausage, semi dry sausage, oft cheese

Barre ware for slicing should be cooked horizontal. Contact us for our special advisory service.
