## Processing Directive **c-spice® t/tb**

**Product description:** sewn spice casing on the basis of textile.

**c-spice® t/tb** must not be exposed to moisture before processing, since the spice coating inside can detach itself from the casing.

If you have not used all of the spice casings in your PlanetPac bag, simply close this again and store the **c-spice® t/tb** in an environment that is as dry, cool and dark as possible.

- stuff dry and firm (10% over nominal diameter)
- to be clipped at the uncoated material (clipping help)
- the spice transfers during the curing to the product
- before finishing curing keep lower moisture
- after finishing curing the casing have to be removed

**Application range:** cured sausage
